*We are a bookstore software company who has developed a unique and easy-to-use solution for online and brick and mortar bookstores. Basil is our inventory control and point-of-sale system that will help manage the operations of your store. It has all the power features of an in-store inventory system with the added benefit of allowing you to upload that same inventory to multiple online markets, all within the same system. Being our customer means you're a partner with us to build a product that increases sales, improves efficiency, increases profitability and helps manage costs. **Sunday Voucher:***
